

**JOB ANNOUNCEMENT 2.2.2026**

**NOW HIRING**

**Urban Tree Technician, Full Time**

**30-40 hrs per week**

**Salaried \$35-40k Annually**

**Baton Rouge, Louisiana**

**Benefits eligible**

**Closing Date: 2/27/2026**

**Interested in working in conservation, being outdoors and supporting your community?**

*Baton Rouge Green is a 501c3 nonprofit organization founded in 1987 to lead and inspire the planting and sustaining of community trees and green spaces.*

Baton Rouge Green is hiring an Urban Tree Technician to help inventory and manage trees in public spaces and right-of-way.

Each applicant's relevant background, education, and experience(s) will be considered. Additional on-the-job training will be provided by Baton Rouge Green. A background in data collection, arboriculture, dendrology, or the ecological sciences is ideal.

Specific tasks will include identifying and physically measuring trees, collecting and inputting data, and working with GIS technologies including ArcGIS.

Other duties may include tree pruning from the ground, light debris removal, weed management, and utilizing work-tracking and reporting systems to communicate dynamically on these activities.

This position requires a commitment to field work; it also requires a relatively high level of autonomy, professionalism, and responsibility. Candidate must also have the ability to help develop and adhere to reporting and documentation programs.

Practical and/or academic background in one or more of the following disciplines:

- Forestry (Traditional or Urban)
- Ecological sciences
- Horticulture
- Arboriculture
- Landscape management
- GIS experience a plus
- Other related fields

Must be willing to learn or demonstrate proficiency with mobile electronic devices GIS software for data collection in the field (on the job training provided).

## **JOB ANNOUNCEMENT 2.2.2026**
